**Thank you to the City Council.** Our nephew in Texas is without water and electricity because of the unprecedented snowstorm. It brought back memories of the derecho when our street in Wyoming was without electricity for 6 1/2 days. That street is also where the city wells are located. Because our city council installed a large automatic generator, when the new well was drilled, the whole community had water through the storm and after. I want to give a very late thank you to the city fathers for their foresight as well as their daily volunteerism. Lynn Hayden
